Web Assistant Training

We have been training the Level III's and may have just one more class for those individuals with Administrative positions. In November we plan to start training the Level I's.

InterLinc Project Partners

Windstream was the only entity to express interest, and that was through personal contact. When we did followup with the other partners with past participation, we found that they either had not received the postcard, or they had misplaced it. We plan to work with Purchasing to see if we can do a re-bid for the InterLinc Project Partners.
